

Skills Assessment Resource

Using the list of skills below, identify a few skills you may have learned in the Order of Arrow by ***circling the items***. Once you have circled those skills, go to the Professions table below and circle those skills you identified in the Skillset list, then total up the number of skills / interests you have per profession.

Note: These are merely ideas for you to identify some potential careers that may suit your existing skillset, and this is just a small sample of possible careers. Also note that these skills mentioned are some of the skills found through OA experience and not inclusive, and these professions most often will require skills beyond what is learned in the OA.

Skillset

- | | | | |
|---------------------------|----------------------|--------------------------|------------------------|
| A. Leadership | I. Writing / Editing | P. Medical / Healthcare | V. Sales / Marketing |
| B. Computers | J. Graphic Design | Q. Retail | W. Budgeting |

Your Ideas

Take a few moments and write down some ideas of professions that you might want to further pursue. If you already have a profession (and don't plan on changing it), think of skills and roles you can get or take in the OA that would enhance your professional success.
